

**PENSTICK®*Digital*** is a vinyl cling film for digital inkjet printing. **PENSTICK®*Digital*** can be printed with solvent, UV-cured and latex inks. When printed with solvent inks **PENSTICK®*Digital*** also adheres on the printed side. This makes it possible e.g., to apply advertising or decoration on the inside of a storefront.

## Characteristics

- Adheres without adhesive to smooth, glossy surfaces
- Removable without leaving any residue
- Reusable
- Adheres on both sides (also on the printed side – solvent inks only)
- Good UV resistance; no color fading

## Applications

**PENSTICK®*Digital*** is for example perfectly suited for temporary or long-term storefront decoration or advertising. The clear mat film has an effect of etched glass and could be used e.g. as blinds.

### Product Overview Short Rolls
